-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 112

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claim 7 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.
3. Claim 7 recites the limitation "said horn projection" in line 2. There is insufficient antecedent basis for this limitation in the claim.

Claim Rejections - 35 USC § 102

4. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

5. Claims 1, 4 and 7-12 are rejected under 35 U.S.C. 102(b) as being anticipated by Schwarzbich (6,392,179).

Schwarzbich teaches a switching apparatus comprising:

a rear panel 14;

a front panel 12;

the first panel having a through bore (please see fig. 1);

a switch device including a stationary contact 22 fixed to the rear panel;
a movable contact 46 (fig. 2) brought into contact with the stationary contact upon actuation;
a push button 18 in the bore of the front panel;
the push button supporting the movable contact 46; and
a stationary supporting panel 20 (fig. 2) disposed between the rear and front panel and providing resilient urge to the push button towards the projected position.

Regarding claim 4, the push button has a flange portion (please see fig. 2).

Regarding claim 7, a horn projection 26 is received in a groove (no reference number in fig. 2).

Regarding claim 8, Schwarzbich discloses a holder portion 16 (fig. 1).

Regarding claim 10, please see the abstract.

Regarding claim 11, switch device of Schwarzbich may be employed in a vehicle.

Allowable Subject Matter

6. Claims 2-3 and 5-6 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Claim 2 recites a horn projection pivotally received and supported between the stationary supporting panel and the second surface of the first panel. Above claimed structures are neither disclosed nor suggested by the prior art of record. Claims 3 and 5-6 depend on claim 2.

Conclusion

7. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Please refer to the attached PTO-892.
